

# Dear Governor Hogan:

## Did we hear you right?

YOU want to increase traffic flow through Greenbelt, and ignore what this does to OUR traffic, and

YOU want to remove significant parts of OUR Forest Preserve and ecosystem that took US decades to protect, and

YOU want to take away OUR land for an expensive train that emits the sounds of a sonic boom, decimating the natural heritage and namesake of OUR historic city, visited by world travelers for its unique planned community, and

YOU want to create more road surface leading to more polluted run-off into OUR wetlands, rivers, and backyards, and

YOU want to create 8 lanes of traffic that cater to speed not safety, and then have US pay taxes forever, and ever, and

YOU want US to just accept all this stuff WE really don't need.

## What could possibly be wrong with all this?

**THE GREENBELT FOREST PRESERVE**

**KEEP IT WILD**
